Blackboard is a web program that is used by many Colleges and Universities. We will be using the Blackboard site to take tests and submit assignments. In fact, my daughter is working on an MBA at Johns Hopkins University and she is using Blackboard in her class.

At the Blackboard site, you will sign in. If you do not know your username and password, there are instructions on the sign in webpage. After you have signed in, select Psy 200/11.

On the main course page, you will click on the appropriate button on the left side of the screen. **You will submit your personality test reaction and your Experiment on the Discussion Board on the Blackboard site.**

All of your grades for the course will be posted in the gradebook. If you have any questions about the course, contact me:
