

The Publisher of your text book, Wadsworth/Thomson, has created a site to help you study more effectively.

I would certainly encourage to go to the site and check it out for yourself.

To go to these resources, click here

http://www.wadsworth.com/cgi-wadsworth/course_products_wp.pl?fid=M20b&flag=instructor&product_isbn_issn=9780495553380&disciplinenum=24

In the left hand corner of the page, is a box that says "Chapter Resources" Each chapter has several different resources - there are outlines, objectives, flashcards, tutorials, sample test questions.

Most of the resources on this site are free – so use them. We decided not to use the resources that require a fee (access code) to save you money. You don't need them.

Remember that (in any course or learning situation), the more you involve yourself in the course material, the more you will learn and the easier it will become. We just don't always know ways to involve ourselves besides reading the text.
