H1N1 FluMist vaccine is not right for everyone.

*High risk persons, including pregnant women, those with asthma, heart, lung or kidney diseases, immune disorders, or other chronic health conditions must receive injectable vaccine and **are not eligible** for FluMist. These individuals should contact their primary care provider or local health department to inquire about vaccine availability.*

These clinics are for healthy children and young adults two to 24 and healthy persons 49 and under who live in a household with infants under 6 months. The Health Department will be vaccinating in all schools as vaccine becomes available.

There is no charge for the H1N1 Vaccine.

Vaccine will be given on a first come, first serve basis to those who are eligible.
